## FINANCIAL MATTERS were not affect-

mouth. There was a little increase in cide fly duil. Exchange was plenty in some spots, and absolutely wanting in powdered, 114@12c; cui loaf, 124@12c; others; rates still remain at par buying on New York, selling at i premium; on New Orleans 1 discount buying, selling at par. Gold was at noon at 116; in the press generally, are not encouraging. The Philadelphia Ledger, speaking of business prospects there, remarks: "There is no special activity to note in any department of trade. No one will venture to buy beyond the closest cur- fering at \$18. rent need. There is but this one assurance that gives hope for the luttire, and that is, existing stocks are steadily reducing, and must eventually, and not very remotely, touch bottom, when the very remotely remote actual needs for consumption will in-crease production." The New York [2016] Times said on Saturday: "The day was all unusually eventful one on the stock exchange, and speculation was characrized by intense depression. Judging by the steady decline in prices which light. Lambs, \$1 50@3 per head and has now continued for some time, it is apparent that considerable apprehenn exists in the public mind as to the future course of railroad and miscellaneous shares. This state of affairs is the natural result of recent occurrences, prominent among which are the financial embarrassments of Erie, which have led to the appointment of a receiver, and the influence which that event is likely to exercise upon the fortunes of the other roads engaged in the present ruinous contest." The only cheering reports we receive are from the country; the Nashville Banner of Saturday has the following: "The success of the farmers depends to a great extent on the wheat and potato crops, and from present indications their success will be mbounded. Cheering reports as to their condition reach us daily, and it gives us much pleasure to say that the frost has done no material damage to the wheat. The reports received from all parts of the country indicate a diminished fruit crop, in consequence of the late severe frosts. The percentage of apples and peaches will therefore be very rargely decreased from those of last year." In local securities there is nothing doing worthy of particularizing. We quote Shelby county serip at 70; city notes and coupons at 60@65; \$3000 gas stock was offering at 99. The Nashrille Eanner of Saturday reports: "State warrants are dull and without activity;

You know the pain so well;
When bloodshot eyes shall 'ware the flask,
it smill arrown, you'll se. at such an rour, you'll see That one pure draught is all you'll ask When you'll remember me, When itim-lams or the gout shall blight

The besuly now you prize.

And make it a degraded sight—
A beam in plous eyes;
There may, perhaps, mid fev rish dreams,
Some recollection be. Some recollection be:
of dricks that flow from purer streams,
And you'll remember me.
